

EMERALD™
LASER

amazing results

"What's so impressive about Emerald Laser is that we see localized reduction in circumference without requiring patients to make a major dietary change or engage in vigorous exercise. Patients love the reduction in inches with no pain, scarring or downtime! They're excited, confident and happy, and a happy patient means a happy physician!"

*Dr. William Blackshear, MD
Prescription Weightloss Clinic*

"It is amazing. I lost 7 3/4". I never dreamed that would happen."

Kimberly M..

"In just a couple of weeks, I had 7 inches gone!"

Leslie L.

"Since I've lost the inches, I feel fabulous and confident!"

Erika M.

LOSE INCHES IN WEEKS!

EMERALD™
LASER

THE SAFEST & MOST EFFECTIVE WAY TO LOSE FAT

NO DOWNTIME | NO PAIN | NO BRUISING | NO FREEZING | NO SIDE-EFFECTS

WHAT IS EMERALD LASER?

EMERALD LASER is a non-invasive fat loss laser. It is the only low level laser in the world that has been given FDA market clearance for overall body circumference reduction in patients +30 BMI.

The laser works as a natural alternative for fat loss by using low level lasers to create a temporary pore in the fat cells, allowing the fatty liquids to seep out of the cell and be naturally flushed out through your lymphatic system.

Healthy adipose cells at 0 minutes

Fat droplets seeping across adipose cells at 5 minutes

Complete collapse of adipose cell during emulsification at 18 minutes

Because the Emerald is developed with Erchonia's low level lasers, there is no downtime, no pain and no side-effects, during or after treatments.

ABOUT THE TREATMENT

The treatment with Emerald is quick and you can immediately return to normal daily activities after the treatment.

You simply lie under the laser on your front for (15) minutes and then on your back for (15) minutes.

It's that easy!
